Professional Summary

Skilled Front-End Developer with 5 years of experience in designing, developing, and maintaining responsive web applications. Proficient in modern front-end technologies including HTML5, CSS3, JavaScript, React, and Angular. Adept at optimizing performance, ensuring cross-browser compatibility, and collaborating with development teams to deliver high-quality projects. Seeking a dynamic software or web developer role in a multinational corporation that values innovation and adaptability.

Core Skills

- **Front-End Development:** HTML5, CSS3, JavaScript, React, Angular, Vue.js, TypeScript, Tailwind CSS
- **Back-End Development:** Node.js, Python, PHP
- **Databases:** MySQL, PostgreSQL
- **Tools & Technologies:** Git, NPM, SASS, Webpack, Jest
- **Methodologies:** Responsive Web Design, Agile Methodology, Code Optimization, Cross-Browser Compatibility

Professional Experience

Full Stack Developer Intern

Codecademy, Remote[UK] | Feb 2024 – Present

- Developed and maintained 15 responsive websites using HTML, CSS, and JavaScript, adhering to modern design principles.
- Gained hands-on experience with React, Tailwind CSS, and Angular, enhancing web application functionality and aesthetics.
- Continuously updated knowledge on industry trends by engaging with industry leaders, blogs, and online courses.

Software Developer

Softtech Engineer LTD, [India] | Jan 2021 – Aug 2023

- Coordinated with development teams of up to 10 members, delivering projects on time and within budget.
- Identified and resolved complex bugs, including memory leaks and asynchronous loading issues, improving website performance by 60% and enhancing user experience.
- Collaborated with cross-functional teams to ensure the successful deployment of web solutions.

Managing Assistant

Swastik India, [India] | Aug 2017 – Dec 2020

- Provided technical guidance to clients on solar energy solutions, contributing to a 50% increase in company sales.
- Engaged in solar industry programs to stay informed on the latest developments, effectively educating clients and driving sales growth.

Projects

Gazetteer Application

- A map-based app to provide information on countries, with a focus on a “mobile-first” development. Preferably using a framework, to then develop HTML, CSS and JavaScript with JQuery modules that use PHP server-based components to source data from third-party APIs such as Geonames, OpenWeather etc.
- The solution is assessed on its delivery to specification, functionality, and usability.

Company Directory

- A company database related application which used for formation of data. (Create, edit, update, delete).
- Mysql and Mariadb database server is used to fetch data on server.
- JavaScript and jQuery handle user interface interactions, while AJAX facilitates CRUD operations without requiring page reloads, ensuring a responsive user experience.

UkSocial – Social Media App

- Developed a React-based social media application in 2024, enabling user interactions through profile creation, updates, and media sharing.
- Improved app performance by 30% using optimization techniques like code splitting and memoization.

Animated Login Form

- Designed an interactive login form using HTML, CSS, and JavaScript, featuring seamless transitions between login and registration modes, enhancing the user experience.

Education

Master of Information Technology

Shri S'ad Vidya Mandal Institute of Technology | Dec 2016

Bachelor of Information Technology

Sarvajanic College of Engineering and Technology | Dec 2014
